Subject Meeting to discuss proposals

In consideration of the fact that we are all very busy, let's have a conference call instead.

Let's talk on Wed 10/10 at 1-3pm using the following call in number: 866-299-3188, code 212-637-4392#

Purpose of this call:

- 1) To go through the major technical questions that have been raised about the EMBM/CSM to see which ones may be addressed by the 2 proposals (modeling and field program) and which ones are not. I will send around a list later to serve as a starting point.
- 2) Ask any remaining questions about the proposals to make sure that we all understand and agree with what is being proposed.
- 3) Discuss schedule to confirm that all of this work can be done in the next 6 months.

I'd like to arrange a meeting to discuss the sediment transport proposal, field sampling program proposal and other EMBM analyses that we have before us.

Would you be available next Wed (10/10) or Thurs (10/11) for this meeting?

Proposed participants are:

Len Warner, Scott Thompson, Ed Garvey, Bruce Fidler
Jim Fitzpatrick, Ed Garland
Ray Basso, Eugenia Naranjo, Alice Yeh
Beth Buckrucker, by phone

I'm open to location - NYC, Fairlawn, White Plains or Mahwah, so please express a preference if you have one.
